

Torri info

Avamposto di difesa del Castello era l'edificio ad esso antistante: nei secoli successivi divenne il granaio ora trasformato in confortevoli appartamenti. La vicinanza alla bella chiesa seicentesca di San Giovanni ed al Castello creano un'atmosfera "medievale" particolarmente suggestiva.

Just opposite the Castle there is this ancient building which was used in the past as the granary and now converted in eight very comfortable apartments. The swimming pool is 100 meters away. The 4 apartments Torri Alte just face the walls which surround the Castle and its garden and the 16th Century Church dedicated to Saint John. Here you can breathe the medieval atmosphere and in the evening you can enjoy the breeze coming from the north and forget the worries of life.
